

MANUAL AMENDMENT

MANUAL AFFECTED: FIREPOWER, LASER BALL, and KING TUT Drawings

PURPOSE: Describe elimination of 8T28 data transceivers from CPU Board.

CHANGE: The 8T28 data bus transceivers at IC9 and IC10 have been replaced with header plugs. With this arrangement the data bus at MPU IC1 is common with the memory and PIA data bus.

The header plug connects pins 2 and 4 to 3, 5 and 7 to 6, 9 and 11 to 10, and 12 and 14 to 13.
