INTER-OFFICE COMMUNICATION

DATE March 27, 1986 **TO** Pat Delahanty
FROM Herb Foss
SUBJECT Pinball Kit Cost Quotations for Unidesa

Please prepare costs on the following kits:

- A) 500 Space Shuttle
- B) 500 Comet
- C) 500 High Speed

Use the Comet Kit (540-K) B/M as the basis for the Space Shuttle and High Speed. The Comet Kit contained only the display assemblies and the playfield with the appropriate packaging material.

The 540-K (Comet) has to be updated to conform with the actual packaging material consumed when the 500 Comet Kits were made for Unidesa. Engineering is in the process of updating the Comet Kit B/M.

The cost information is to be presented at a April 9⁷, 3:00 p.m. meeting.

If you have any questions, feel free to contact me.

Herb Foss
