

Description of Game Play for HanaHo Skill Shot Upright Game

Depositing a quarter drops the coin to the upper left flipper. Flipping the coin into a numbered hole results in a voice telling you the value of that hole. Sometimes the voice will encourage you as in "Good job!" or "You're really building up a good score!" If you hesitate too long in flipping the coin the voice will say "Come on! Let's shoot the coin!" The bottom rows on the playfield have many Game Over holes which of course stop the game. Total score shows on display. There are 4 different messages that can be displayed when the game is not being played. "Play SkillShot And Win A Beer!" "Win-Win-Win!" "Win Tickets" or "Win A Prize" A flashing yellow beacon on top of the game flashes randomly in attract mode and also when beating the high score.
