Our beautifully sculpted models were created by: Dave Link

DMD display effects lead belongs to: Chuck Ernst. DMD dot support provided by: Mark Galvez, Zac Stark and Tom Kyzivat.

Mechanical engineering lead goes to: Elliot Eismin. Support engineering goes to: Mike Redoble.

Sound designer credit goes to: Jerry Thompson. Original music composition credit goes to: Shawn Myers and Ian Sturgeon.

The Ray Parker Jr. "Ghostbusters" song is in all the versions of the game.

I have deleted John Rotharmel from the engineering credit line.

This should cover it for now. Let me know if you need anything further.

Take care!

John
