When challenge makes men feel alive ...

Devil Riders

... to compete with a perfect machine is a need!

"DEVIL RIDERS" is a complete pinball.
It integrates the play on the upper level with
the one on the lower, and gives a dynamic
function to the head.

The 3 "5000 PTS" targets are the way to the
access ramp to the upper level.

During the game
on the upper
level the rider
goes round and,
at each crossing,
collects the
scores indicated
by the lit lamps.

On the upper level 20" are
available to knock the fixed
targets so that the speed of
the motor-bike is increased.
